PROJECTS

Receipt Data Extractor 2026

- **Developed a full-stack web application** that allows users to upload images of receipts and automatically extracts structured data, including purchased items, prices, and totals.
- **Integrated Google's Gemini AI API** to perform high-accuracy Optical Character Recognition (OCR) and intelligent data extraction, reliably converting unstructured image content into formatted, easily parsable JSON data.
- **Built a responsive, modern frontend interface** and engineered a robust Node.js/Express backend utilizing Multer for secure and efficient image upload handling.
